HRone Call - August 17 (10:30 - 11:00)

Key Takeaways

- **Core Need:** A phwysical biometric system for accurate attendance, integrated with payroll to prevent location-based check-in fraud.
- Pricing: The proposed annual cost is ₹1,06,800, covering the HRMS (₹34,800), a facial recognition tablet (₹42,000), and WhatsApp notifications (₹30,000 for 20,000 credits).
- **Feature Gap:** The "Launchpad" plan (for <25 employees) lacks key features like short leaves and expense management, which are only available on the "Enterprise" plan (min. 50 licenses).
- **Demo Limitation:** No test credentials are provided, preventing hands-on evaluation of the software's look and feel.

Topics

Client Requirements

- **Attendance:** Physical biometric system for accurate, fraud-proof check-ins, rejecting less reliable location-based methods.
- **Payroll:** Automatic salary slip generation based on biometric attendance data.
- **Communication:** An internal hub for company news and achievements.
- **Notifications:** WhatsApp/SMS alerts for leave/reimbursement approvals, chosen for higher engagement than email in India.

Proposed Solution & Pricing

- **HRMS Software:** ₹34,800/year (Launchpad plan for <25 employees).
- **Attendance Hardware:** ₹42,000/year for a facial recognition tablet.
    - **Note:** This is a 50-license minimum purchase, which is a significant commitment for a 15–20 person company.
- **WhatsApp Notifications:** ₹30,000/year for 20,000 credits.
    - Cost: ₹1.50 per notification.
    - Note: This is a separate, optional add-on.

Demo & Feature Gaps

- **Employee Portal:**
    - **Dashboard:** Shows highlights (celebrations, leaves), a company feed, and personal stats (tasks, attendance).
    - **Inbox:** For policy acknowledgements and letter downloads with digital signatures.
    - **Requests:** For leave applications.
        - **Gap:** "Short leaves" are not supported on the Launchpad plan.
- **HR Admin Portal:**
    - **Payroll:** A multi-step process (process attendance → process salary → generate bank chalan).
        - **Gap:** No direct bank integration for automated payments.
    - **Reports:** Standard Excel exports for attendance, payroll, etc.
    - **Task Delegation:** Admins can view and manage pending tasks in any employee's inbox.

OtuHR - August 18 (11:00 - 11:30)

Key Takeaways

- **Core Need:** A 20-person company needs a unified platform for attendance, payroll, and internal communication.
- **Key Feature:** The "Site Visit" module provides GPS-verified check-ins, auto-calculates travel distance, and allows photo uploads for proof of work.
- **Pricing Strategy:** A hybrid plan is proposed to meet the company's specific needs:
    - **Standard Plan:** ₹2/day/user (₹60/mo) for the 14 office-based employees.
    - **Premium Plan:** Includes the Site Visit module for the 6 field employees.

Topics

Company Requirements

- **Size:** 20 employees
- **Core Needs:** Attendance, Payroll, Internal Communication
- **Key Distinction:** 6 field employees require a "Site Visit" module, while 14 are office-based.

Platform Demo: Site Visit Module

- **Purpose:** Track and verify field employee activity.

- **GPS Verification:** Check-ins are tied to a Google Maps location, preventing manual entry and ensuring accuracy.
- **Auto-Calculation:** The system automatically calculates travel distance, providing a clear record for travel expenses.
- **Proof of Work:** Employees can upload images (e.g., of a trailer) to document their visit.
- **Reporting:** Generates detailed reports by employee, department, or time period (day, week, month).

Proposed Pricing & Plan

- **Standard Plan:** ₹2/day/user (₹60/mo) → For the 14 office employees.
- **Premium Plan:** Includes the Site Visit module → For the 6 field employees.
- **Mobile App:** Available on iOS and Android.

FactoHR - August 18 (11:30 - 12:30)

Key Takeaways

- **CapOasis Needs:** An HRMS for ~30 employees across 2 entities, requiring self-onboarding, biometric integration, and automated payroll to replace manual, error-prone processes.
- **Factor HR Solution:** The Premium plan (₹3,999/mo + ₹89/emp) was selected for its core HR, payroll, and expense management features.
- **Pricing Gap:** A significant budget mismatch exists. The initial quote was ~₹55k annually, while CapOasis's budget is ₹35k–₹45k.
- **Key Differentiators:** Factor HR justifies its price with direct call support, free biometric integration, and ISO 27001 data security on Microsoft Azure.

Topics

Factor HR Solution & Demo

- **Platform Overview:** An AI-powered, mobile-first SaaS HRMS.
    - **Security:** ISO 9001 & 27001 certified; data hosted on Microsoft Azure.
    - **Support:** Direct call support (L1-L3) with no toll-free numbers.
- **Key Demoed Features:**
    - **Self-Onboarding:** Candidates receive a link to enter their own data, saving HR time.
    - **Attendance:**

        - **Biometric Integration:** Free integration with CapOS's existing ESSL machines.
        - **Mobile Punch:** A live demo confirmed the app's functionality, including location tracking.
    - **Payroll:** Automated processing, including statutory compliance, with multi-entity support.
    - **Mobile App:** A full-featured app for ESS, approvals, and document access.

Pricing & Negotiation

- **Initial Quote (Premium Plan, 25 employees):**
    - ₹3,999/mo for the first 20 employees.
    - ₹89/mo for employees 21-25.
    - **Annual Cost**: ~₹55,000 (after a 10% discount).
- **Budget Mismatch:**
    - **CapOasis Budget:** ₹35,000–₹45,000 annually.
    - **Competitor Quotes:** Ranged from ₹2/employee/month to ₹16,000 annually.
- **Factor HR Justification:**
    - **Support:** Direct call support vs. competitor ticket systems.
    - **Security:** ISO 27001 certification and Azure hosting.
    - **Flexibility:** Free biometric integration and no retraining costs.
- **UI Feedback:** Pranav noted the UI felt "a little complex," preferring a simpler interface.

Kasturi HRMS - August 26 (10:30 - 11:00)

Key Takeaways

- **Core Solution:** A "hire-to-retire" HRMS covering core HR, time/attendance, payroll, and exit management.
- **Key Features:** Biometric integration, location tracking for field visits, and automated attendance rules (e.g., short time → half-day).
- **Pricing:** ₹90/employee/month (₹27,000/year for ~25 employees) with setup fees currently waived.
- **Decision Timeline:** Evaluating options for potential implementation in ~2 months and discussing internally.

Platform Overview & Features

- **Dashboard:** Customizable with widgets for leave balances, holidays, and company announcements.
- **Employee Management:**
    - Bulk employee data import via a provided format.
    - Self-service portal for employees to update personal info (bank details, etc.).
    - Centralized view of employee status (active, inactive, check-in/out).
- **Time & Attendance:**
    - Biometric integration for check-in/out.
    - Location tracking for field visits (ODT) and Work From Home (WFH).
    - Automated attendance rules (e.g., short time → half-day).
    - Discrepancy resolution workflow: employee raises issue → manager approves/rejects.

- **Leave Management:**
    - Employee self-service for leave requests.
    - Admin/manager approval workflow.
    - Configurable leave types (CL, RH, Maternity, etc.).
    - Automated Leave Without Pay (LWP) calculation.
- **Payroll:**
    - Configurable payroll templates.
    - Generation by entity (e.g., department, location).
    - Option to hold salary for specific employees.
    - Automated FNF (Full & Final) settlement calculation.
- **Exit Management:**
    - Employee-initiated resignation process.
    - Configurable notice periods (e.g., 45 days).
    - HR notification and meeting scheduling workflow.
    - Automated FNF calculation upon exit.
- **Other Modules:**
    - **Asset Management:** Request/approval workflow for company assets.
    - **Document Generation:** Templates for offer letters, experience letters, etc.
    - **Timesheets:** Project-based time tracking for productivity monitoring.
    - **Claims:** Expense submission with photo proof.

Proposed Solution & Pricing

- **Cost:** ₹90/employee/month (Annual cost: ₹27,000 for ~25 employees)
- **Offer:** Setup charges are currently waived.
- **Timeline:** Implementation planned within ~2 months.
- **Context:** Significantly more competitive compared to competitor pricing (₹1 lakh+ for 25 employees).

Keka HRMS - August 26 (12:00 - 13:00)

Key Takeaways

- **CapOasis Needs:** A modern HRMS to replace its current "basic, Google Forms-based" system, with key requirements for asset management, expense tracking, and field employee location tracking.
- **Keka Solution:** The "Strength" plan directly addresses these needs with advanced features like geofencing for field staff, a full payroll suite, and integrated asset management.
- **Special Offer:** A time-sensitive discount was proposed to secure a deal by Aug 31: ₹90,000 for the first year, waiving the standard ₹20,000 setup fee and reducing the monthly rate from ₹10,000 to ₹7,500.
- **Positive Feedback:** Pranav praised Keka's UI as "pretty simple" and intuitive, a major improvement over other platforms he has evaluated (e.g., KMX).

Topics

CapOasis's HR Challenges

- **Current State:** A "very basic, Google Forms-based" system that lacks the functionality of a true HRMS.
- **Core Requirements:**
    - Full HRMS suite (onboarding, exits, leave, payroll, etc.).
    - Expense and reimbursement management.
    - Asset management (laptops, SIMs, monitors).

    - Location tracking for ~5-6 field employees.

Keka HRMS Demo & Features

- **Company Overview:**
    - Founded 2016; raised $57M.
    - Serves 12,500+ global customers (e.g., OnePlus, JSW Steel).
- **Key Modules & Capabilities:**
    - **Onboarding/Exits:** Automates tasks (e.g., document collection, asset recovery) with customizable templates and approval workflows.
    - **Expense Management:** Defines policies with per-category/per-day limits and multi-level approval chains.
    - **Asset Management:** Tracks asset lifecycle (assignment, condition, recovery), including damage charges and an employee request portal.
    - **Time & Attendance:**
        - **Geofencing:** Auto-clocks employees out if they leave a defined radius during their shift.
        - **Continuous Location Punching:** Tracks field staff location every 15 minutes.
        - **Biometric Integration:** Connects with existing ESSL devices.
    - **Payroll:**
        - 6-step process with automated error detection to prevent compliance issues.
        - Auto-calculates overtime, reimbursements, and taxes.
        - Generates bank-specific transfer statements and customizable payslips.
        - Includes compliance reports for Maharashtra and integrates with Tally, Zoho Books, and Xero.

Pricing & Special Offer

- **Standard "Strength" Plan (30 users):**
  - **Annual:** ₹120,000 + ₹20,000 one-time setup fee.
  - **Half-yearly:** ₹60,000 + ₹20,000 one-time setup fee.
- **Special Offer (Close by Aug 31):**
  - **First-Year Cost:** ₹90,000.
  - **Includes:** Waived ₹20,000 setup fee and a reduced monthly rate of ₹7,500.
